## Arsenal vs Newcastle

After the debacle of the Mickey Mouse Cup, we are up in a tricky task in the FA Cup against the Barcodes (nickname for newcastle)

With a new coach for them, the newcastle players will be eager to demonstrate their ability.

On the other hand, we will be eager to get the horrible loss behind us and bring the team back up in terms of team spirit and results.

Who will wenger play? Last heard online is that it will be a mixture of youth and experience. Flamini seems to be determined to start while cilchy is back after recovering from his groin injury.

Hopefully Eduardo will start with either Ade or Bendtner and save Walcott the embarrassment of playing lousily in the striker's position.

Come on you gunners! We need a good result after the last round of S\*&t

My Prediction: 3-0 win for Arsenal

Newcastle is a very good team and we will have, probably, some difficults, but we can't forget that we are the ARSENAL !

I believe you Arsenal !

My prediction is one victory !

Go Gunners !

We won BIG!! hahahahaa..

3-0. with 2 goals from Ade and an own goal from Butt(which Eduardo would have scored if not headed by Butt)

the team was back to the nice passing game that we are used to after the first goal. all is well now.

:)

Go Gunners! (goal) cryinglaught

its was a very important game for us to win. After the thrashing by our bitter rival and our own internal stupid fight, it was important that we came out shouting.

a 3-0 score against a premier league side is a great booster.

we have to build on this. Starting with Tues game against the magpies again.
