
Can new members create threads?

Posted by LittleTT - 2008/04/23 19:41

Hi admin,

I'm a new member of this forum. I want to know whether I can create threads or topics in this forum or not. If I can't, when can I create them?:huh: :huh:

I'm sorry if my sentences contain errors because I'm not an English and I can't write or say English Language well.:blush:

Hi LittleTT,

Yes. Of course you can create threads. We encourage all members to talk about anything of interest. That will make this forum more lively.

You can go to forum, select the heading that you want to post in (eg: transfer gossip), then at the top of all the threads heading (left hand side), you can see New Thread. Click on this button and you can start a new post.

Cheers!
