
Suggestion: How about a chat room?

Posted by LittleTT - 2008/07/24 18:27

Hi admin,

I've seen some forums have a private chat room for the members.

So, I think we shd have one.

I've found a website which makes free chat rooms called www.meebo.com.

It gives some html codes when we sign up and we can use it ready.

I suggest you to get a chat room from that site...

It's not an website advertisement and it's just a suggestion...

Regards,

TT

Anyone else interested in a chatroom? I could start one if there's enough demand.
