
Why???

Hi Admin,

At the homepage, and above the top five posts, I see a link "join arsenal n friends".
But when I click it, a sentence "You are not authorised to view this resource" is appeared.
So, what requirements does the one who can see it need?

Thanks,
TT:)

Why would you like to join Arsenal n friends when you are already member??:)
I think this is just for those who are not members jet. Or?

Thanks for pointing it out.

Horvat is correct. That link is only for those who haven't sign up yet.
